# Joining Virtual Classes with Zoom on desktop / laptop

Primary Plus, Lower Secondary, Upper Secondary

1. Go to <https://englishonlinelearn.britishcouncil.org/login>

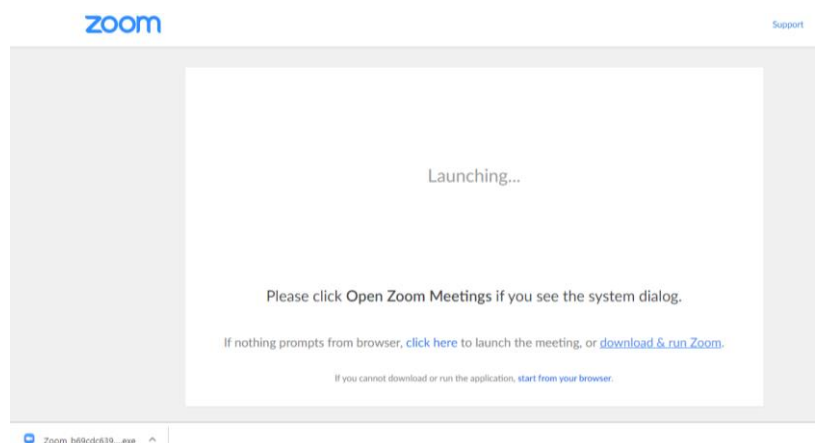

2. Find the name of your current magazine and click the + sign

3. Click join up to 10 minutes before the start of class

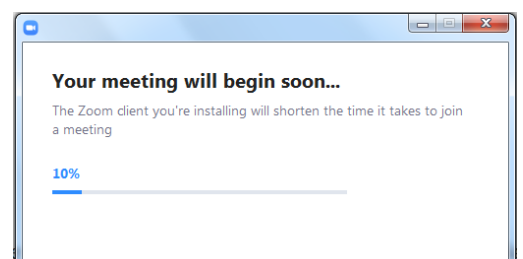

4. A new window will pop up. If you don't have Zoom, click 'download and run'.

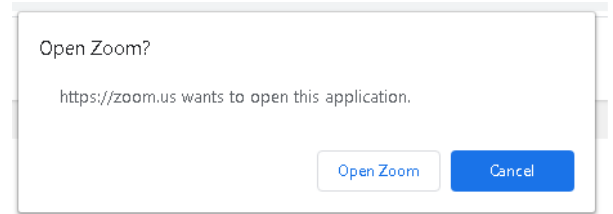

5. Run the install file

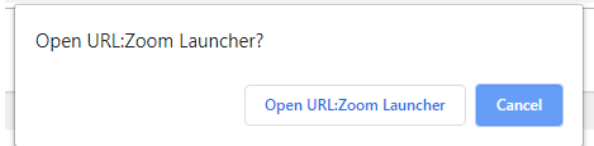

6. Wait a few moments while the software installs

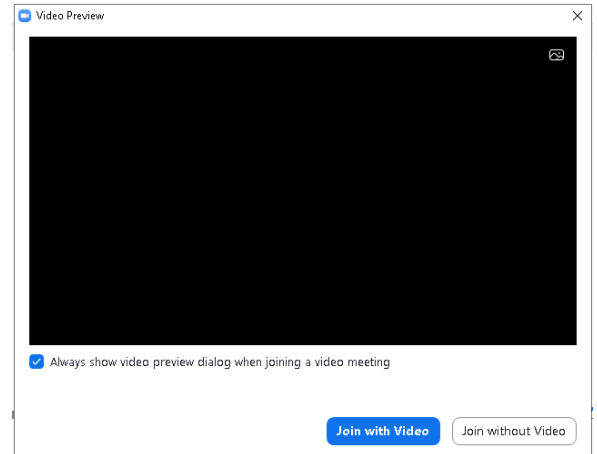

7. If you already have Zoom installed, click 'Open Zoom' in the dialog box

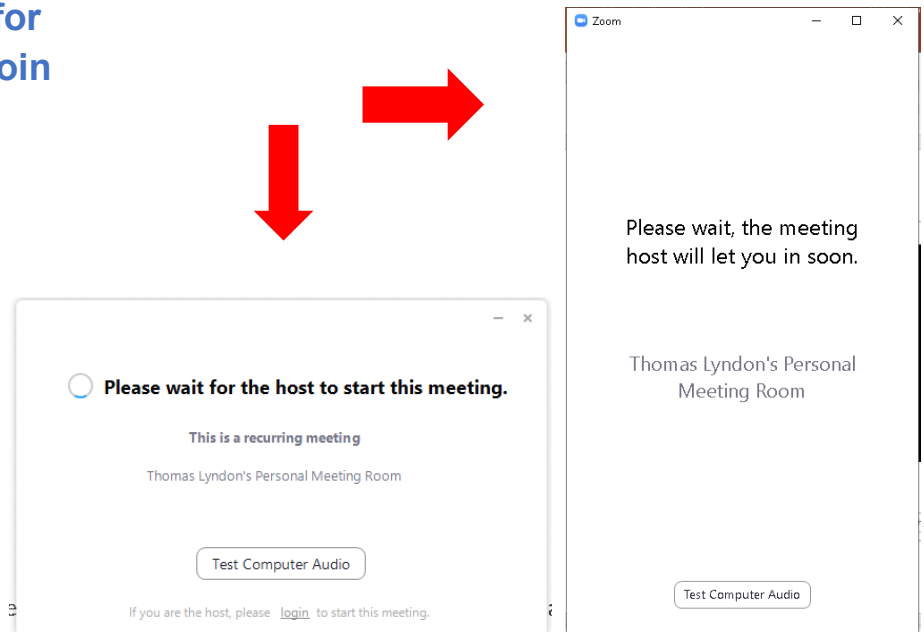

or

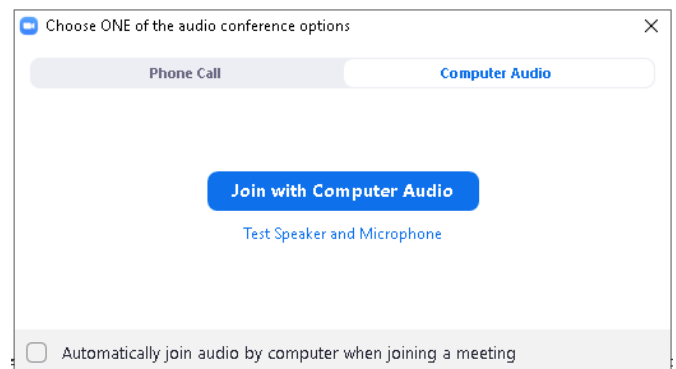

8. When prompted, click join with video

9. You may have to wait for the teacher to let you join the class

10. When prompted, click join with audio

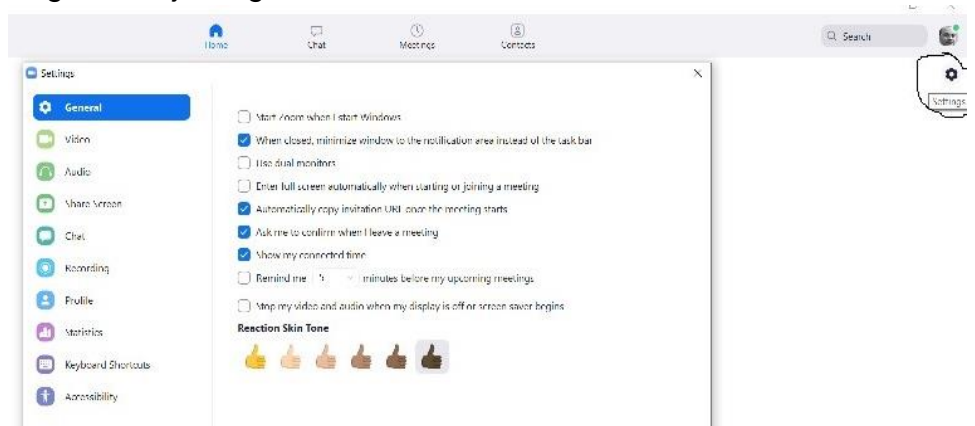

## System check

Before logging in, we recommend that you do the following system checks to make sure your child can easily access and take part in the Virtual Class lessons.

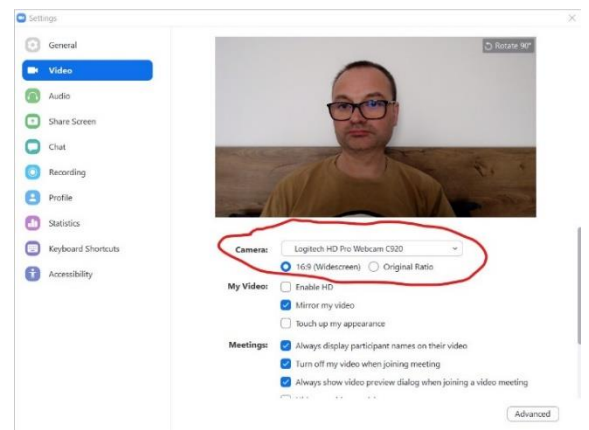

These will test the access of Zoom to your camera and microphone, as well as the Internet connection.

Please check these are working before joining the class.

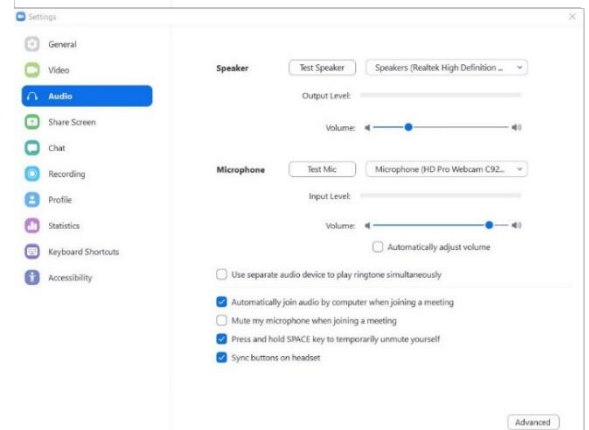

- 1) Open the Zoom app (download [here](#), if you don't have it installed)
- 2) Open settings by clicking the cogwheel at the top right.

- 3) Choose video, and check you are seen. Select the correct camera if you have more than one.

- 4) Choose audio and check your microphone and sound are working. Select the correct microphone if you have more than one.

You may also want to check your bandwidth. Zoom recommends you have a minimum of 1 Mbps for good video quality. If you want to check your Internet speed you can use Speed Test: <https://www.speedtest.net/>. For further information on system requirements, you can refer to the Zoom website (English only), <https://support.zoom.us/hc/en-us/articles/201362023-System-Requirements-for-PC-Mac-and-Linux>.
